ADRIEN BRODY

A MOMENT OF VISION

Adrien Brody joined Mr. Eight for the official opening at Atlantis The Royal, marking the occasion with a presence defined by depth, character and individuality. Fresh from his acclaimed role in The Brutalist, where he portrays architect László Tóth, his appearance carried a natural connection to the world of architecture, artistic vision and bold design language. More than a ceremonial moment, it reflected the values at the heart of Mr. Eight — a commitment to design-led living shaped by identity, ambition and lasting character.

SPA & CARE

THE ATMOSPHERE

Buly's marble scented candles are more than fragrance — they are decorative objects, bringing a soft Parisian glow and a refined olfactory signature to the spa.

THE HAIR

Hand-polished acetate combs, crafted in Europe, turn daily hair care into a beautiful ritual — gentle to the hair and elegant enough to live on the vanity.

THE BODY

Lait Virginal is one of Buly's classics: a light perfumed body lotion that softens, moisturises and leaves the skin wrapped in a delicate French scent.

THE FACE

Vide Poche is a small roll-on eye serum with plant and essential oils, created to refresh the gaze and reduce the appearance of dark circles and puffiness.

THE HANDS & BODY

Pommade Concrète is Buly's iconic nourishing balm for hands, feet and dry areas — rich in shea butter, beeswax and chamomile floral water for daily softness and care.

TOWER CONFIGURATION

The WOW Tower is a 45-level landmark high-rise (including all technical floors) and a true vertical icon in DLRC, designed as a mixed-use destination where elevated living, business functionality, and lifestyle amenities come together within one tower.

At the top, Sky Club on Floor 39 is a dedicated wellness and leisure level featuring the Sky Gym, spa, private cinema, children's playroom, and rooftop terrace with panoramic views.

From Floors 17 to 38, the tower offers Private Suites — the residential part of the building, positioned for open views, natural light, and greater privacy.

From Floors 1 to 15, Business Suites provide flexible commercial spaces designed for office and professional use.

Also on the 1st floor, the tower features a major amenities zone with the pool, tennis courts, landscaped park, artificial river, and co-working space.

Club Level parking is integrated across Levels 1 to 5, ensuring convenient internal access throughout the building.

On the ground floor, the Retail & Grand Lobby create the main arrival experience, with the Arrival Lobby, cafés, restaurants, and curated retail at street level.

To ensure privacy and comfort, the residential and commercial parts of the tower are fully separated, with dedicated entrances, lobbies, and lift cores.

A BEACH-CLUB ATMOSPHERE

Surrounding the Grand Pool, the sun terraces are designed as a complete open-air leisure setting where comfort, atmosphere and resort-style living come together. Generous in scale and thoughtfully arranged, the space is furnished with oversized, exceptionally comfortable sunbeds that bring the relaxed character of a private beach club into the everyday life of the building. Together with shaded cabanas, natural travertine surfaces and the elevated position of the pool deck, these terraces create a refined setting for sunbathing, unwinding and spending long, comfortable hours outdoors.

GRAND LOBBY
THE FIREPLACE

Grand Lobby at The WOW Tower is conceived as a true arrival experience and the emotional signature of the building. Its defining feature is the dramatic entrance sequence, where residents and guests walk through a carefully linked composition of fire and water, instantly creating a powerful wow effect from the very first step. Framing the fireplace are bottleless, illuminated waterfalls with integrated LED lighting, a form inspired by and memorable first impression – the "Gin" in the name of the tower is already being expressed through the space itself.

Inside, the lobby is thoughtfully divided into a series of functional yet elegant zones. These include a library area for quiet moments, a café space for informal meetings and daily comfort, and several additional lounge areas where residents can work, relax, meet guests, or simply spend time in a refined setting.

At the heart of the resident lounge sits a gas fireplace, serving as a central design feature and a natural focal point of the space. More than a decorative element, it brings warmth, atmosphere, and a contemporary sense of comfort and luxury to the lobby experience.

More than just an entrance, the Grand Lobby is designed as a living social space — a place that combines atmosphere, functionality, and identity, setting the tone for the entire residential experience at The WOW Tower.

Fully furnished with a curated selection of premium design brands, the Grand Lobby features furniture by Edra, USM Modular Furniture, and B&B Italia, complemented by lighting from Tom Dixon and Flos.

AT THE HEART OF THE LOBBY

Positioned as the symbolic heart of the lobby, the large Scandinavian-style fireplace brings warmth, intimacy and a quiet sense of balance to the space. Designed as a contemporary gas or ethanol feature rather than a traditional wood-burning fireplace, it serves as an elegant source of atmosphere, visual comfort and understated character. More than a decorative element, it creates a natural focal point and a modern interpretation of the hearth as the centre of gathering, relaxation and resident experience within the lobby.

SAUNA & HAMMAM WITH PANORAMIC VIEWS

The sauna and hammam are conceived as immersive wellness spaces where ritual, architecture and panoramic views come together in one shared experience. Both rooms are designed with full-height double glazing facing the city, allowing residents to enjoy Dubai's skyline and distant horizons while surrounded by heat, steam and calm. The sauna draws on the clarity of contemporary Scandinavian design, where clean lines, simplicity and a strong connection to light and atmosphere shape the experience, while the hammam brings in the softer, enveloping character of traditional steam rituals, long associated with warmth, cleansing and gradual relaxation. Together, they create a modern thermal retreat in which the view becomes part of the ritual itself.

Sculpted by Hand.

Every stone surface requires the precision of human touch — it's not an industrial process, but a craft. Skilled artisans hand-shape and polish each piece of travertine and Calacatta marble, ensuring perfect alignment and natural harmony. Because every stone is unique, with its own texture and pattern formed by time and nature, no two surfaces are ever the same. This individuality is what gives each project its true value and timeless beauty.

Tailored by Nature

NATURAL STONE THROUGHOUT THE RESIDENCE

Every residence at LE CHÂTEAU PIÉTRUS is finished with natural stone selected for its quiet elegance and timeless character. The floors are laid in natural travertine, bringing warmth, depth and a soft Mediterranean texture into the living spaces. In the kitchens and bathrooms, Calacatta marble adds a more sculptural expression — refined, bright and distinctive, with natural veining that makes every surface unique.

ITALIAN CALACATTA MARBLE
USED IN KITCHENS AND BATHROOMS — A REFINED NATURAL STONE WITH EXPRESSIVE VEINING AND A TIMELESS ARCHITECTURAL PRESENCE.

NATURAL TRAVERTINE FLOORING
USED THROUGHOUT THE RESIDENCES — WARM, ELEGANT AND NATURALLY TEXTURED, CREATING A CALM AND ENDURING INTERIOR ATMOSPHERE.

BARAZZA
taste of design

Crafted in Italy

THE ART OF ITALIAN STEEL

For the residences' kitchens, we selected appliances by Barazza — an Italian family brand born in 1968, when Pietro and Antonio Barazza founded the company in Santa Lucia di Piave, in the heart of Treviso's Stainless Steel Valley. For almost sixty years, Barazza has built its identity around stainless steel, combining artisan skill, technological innovation and refined Italian design.

The brand focuses on creating high-performance kitchen solutions where every detail is designed to last, to feel precise, and to bring beauty into daily life. Its philosophy is simple: transform steel into elegant, functional objects that make the kitchen not only a place for cooking, but a space of design, craftsmanship and Italian excellence.

Taste of Design

ONE FAMILY AND ITS GREAT ENTERPRISE

For LE CHÂTEAU PIÉTRUS, the kitchen is designed as part of the residence's lifestyle — elegant, calm and deeply functional. The Barazza appliances selected for the Icon and Aura kitchen concept bring a distinctly Italian stainless-steel language into the space: precise lines, durable materials and a professional sense of performance hidden inside a refined residential setting. Barazza's use of AISI 304 stainless steel gives the kitchen a hygienic, long-lasting and corrosion-resistant core, while its refined finishes and carefully engineered details add a quiet architectural quality. More than appliances, these elements complete the kitchen as a crafted Italian composition — beautiful to look at, comfortable to use, and made to remain timeless in everyday life.

It was the year 1968 when Pietro and Antonio Barazza established their company in Santa Lucia di Piave, in the heart of Treviso's Stainless Steel Valley, near the towns of Conegliano and Vittorio Veneto.

LA CUCINA OTTO

TRADITION, TASTE, AND TIMELESS DESIGN

ITALIAN HANDCRAFTED KITCHENS

Every kitchen at LE CHÂTEAU PIÉTRUS is produced in Italy at our San Marino factory under our own brand, La Cucina Otto. Created with Italian manufacturing, refined materials, and precise European craftsmanship, each kitchen is designed as a fully integrated part of the home. Fully equipped with Barazza appliances, every space combines elegant cabinetry, smart interior lighting, durable finishes, and a high-end functional layout. La Cucina Otto reflects the quiet quality of Italian-made living — handcrafted, timeless, and created for everyday beauty.

Wardrobes

PREMIUM ITALIAN WARDROBES

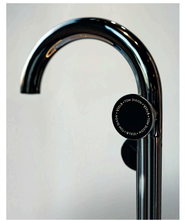

The wardrobe systems at LE CHÂTEAU PIÉTRUS are produced at our San Marino factory and installed by Italian master craftsmen to ensure the highest level of finishing and quality control. Each wardrobe is designed with printed glass doors, slim aluminium frames, integrated lighting, and refined internal details that turn everyday storage into a premium interior feature. Leather-lined drawer inserts, carefully selected materials, and precise European assembly create a wardrobe system that feels elegant, durable, and fully aligned with the standards of a contemporary Italian residence.

Designer Approach

Tom Dixon, a pioneering British designer, emerged onto the design scene in the late 1980s bringing with him a background in welding and a self-taught exploration of design principles. Renowned for his boundary-pushing approach, Dixon merges industrial influences with craftsmanship, resulting in a unique perspective evident in his work. His innovative use of materials, such as copper, brass, cork, marble, glass and his ability to create instantly recognizable sculptural forms have solidified his status as one of the most influential designers of his generation.

Tom Dixon's multidisciplinary approach spans furniture, lighting, accessories and interior spaces, showcasing his versatility and creativity. Through his eponymous brand and Design Research Studio, Dixon continues to shape the design industry with his bold vision and unwavering commitment to innovation.
